FINDINGS (Subjective and Objective)

PLANS

12/5/11

Wt: 176

BP: 110/74

HR: 78

Flu protein in hematuria

biopsy proven X-linked carrier for Alport

here for genetic/familial counseling

BP 110/74 HR 78
 COP neg
 lungs clear
 abd soft
 EXT no edema

Impression - carrier of X-linked Alport syndrome
 protein in hematuria
 hyperlipidemia
 overweight

Felt

Dr Yassin

Plum - did genetic counseling with mother & p.t.

Amanda's 1st brothers, age 16 + 22, need
 to be screened with creatinine & u/A
 because I suspect Amanda's mother
 is a carrier.

No specific treat ment indicated other
 than to monitor for HTN (at which
 time ACE inhibition could be used).

Amanda was informed that a son
 tested here 50% chance of Alport's
 (Full blown) because of severe deletion.

check
 creatinine
 w/ TP/ur monthly
