Dear Dr. Yassin

REVEN, CASEY
129 GUNWALE RD
MANAHAWKIN, NJ 08050
DOB: 12/15/95

was seen on 10-3-11

and did not schedule or failed to keep their follow up appointment as requested. As you know, follow up to reassess the history and physical exam, review laboratory data and assess response to treatment is a key part of accurate diagnosis and treatment. As their primary care provider, we thought it important for you to be aware that this part of my evaluation cannot be done without follow up.

As always, we are happy to see patients referred by your office.

Sincerely yours,

Jonathan Teitelbaum, M.D.
